Education

- 100 **Master's Degree in Electronic Engineering, 03/2024**
University of Bologna
Master Thesis: *Hardware and Software development of an Ethernet module on FPGA*
- 104 **Bachelor's Degree in Computer Science, Electronic and Telecommunication Engineering, 03/2020**
University of Parma
Thesis: *Performance analysis of an IP module for IFFT computation on FPGA*
- 94 **Secondary School certificate in Technical Institute of Technology, 07/2016**
Istituto Superiore Enrico Fermi – Mantova
Thesis: *Rubik's cube solver robot*

Experiences

- from 05/2024 to 11/2024 **Electronic Engineer, Fraste, Nogara (VR)**
Development of electrical system for drilling rigs.
- from 04/2024 to 05/2024 **Driver Developer, University of Bologna, Bologna (BO)**
Development and test of an Ethernet driver for NuttX.
- from 05/2015 to 07/2015 **Electrician, Gasparini P.I. Andrea, Castel d'Ario (MN)**
Electrical system for houses.
